

Kevin Dutile

Software Developer

kevin.dutile@gmail.com • linkedin.com/in/kevindutile/ • github.com/kdutile

Software developer focused on building solutions through full-stack web applications. Highly motivated to solve problems and build user friendly products. A decade of experience managing teams in the eBook production space.

Skills

Languages | Python, Ruby, JavaScript, HTML, CSS, XML

Libraries and Frameworks | Node.js, Express.js, jQuery, React, Django, Rails

Database | MongoDB, Mongoose, PostgreSQL

Project Management and Communication | Jira, Confluence, Git/GitHub

Other | Adobe Acrobat, PitStop Pro, ImageMagick, FFmpeg, Google Docs Suite, Microsoft Office Suite

Professional Experience

General Assembly | Remote

Software Engineering Fellow

(01/2022)-(04/2022)

Immersive 12-week, 500+ hour program focusing on web development, software engineering, and computer science fundamentals. Learned to build full-stack applications using industry favored languages and frameworks. Projects include:

- **Personal Portfolio** - a web application to display information about myself and projects. Created using HTML, CSS, JavaScript, and jQuery.
- **Today's Special** - a full-stack web application meant to help users organize, schedule, and display meal offerings. Created using MongoDB, Node, Mongoose, Express, Materialize and deployed on Heroku.

Professional Experience

VitalSource Technologies | Boston, MA

Manager, Digital Production

(07/2017)-(Present)

- **Scripting:** Maintained Perl and Ruby scripts for file production.
- **Team Management:** Team coordination, resource management, and workflow optimization. Enabled team learning and development for personal and organizational growth.
- **Content Consulting:** Audited and recommended improvements on client content to maximize user experience.

Digital Production Specialist

(01/2016)-(06/2017)

- **Product Support:** Triaged and resolved content related issues. Assisted in large internal and external QA initiatives to strengthen key client relationships.
- **User Support:** Owned and maintained tiered escalation of content support. Used Atlassian products to manage workflows.

Production Associate

(08/2012)-(12/2015)

- **Production for Professional Services:** Converted, modified, and created digital content for eBooks and learning products.

Education
